Thanks Hilary,

I don't have any comments on the meeting minutes. Attached is the PowerPoint presentation. I added two slides to clarify the steps I took to obtain the reduction from BMPs cutoff.

Jeff, I ran the steps I took to create the scenarios by Olivia and Jess and they proposed a different method to calculate the BMP reduction, there scenario will not create interactions between the BMPs, and will have a lower reduction than the one I provided. Jess is going to provide the scenario to me next week.

Thanks,  
Cassie

Good morning Cassie,

I hope your week is going well! Attached are the October WTWG meeting minutes for your review.

Additionally, could you send me your PPT from the meeting so I can post it to the calendar page? I realize we hadn't done that yet.

Thanks!

All the best,  
Hilary
